## About Me

Full Stack Developer with 1+ years of hands-on experience designing, developing, and implementing applications and solutions using a range of technologies. Living to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-stack Developer.

## Experience

Full Stack Developer – MERN Full Time,  
Evolligence PVT- LTD **2022 – Present**

- Responsible for writing reusable, testable, efficient code. Implementation of security and data protection
- Ability to work independently with minimum supervision.
- Collaborated with Basserah and worked as a Full Stack Developer on Saudi Arabian based company named NAJM where my job was to create an admin dashboard with authorized accesses to the employees.
- Consulted with client regularly regarding project, proposal, and technical issues that arise during the development process.
- Integrated RESTful API that served data of entire application to dashboard content with functionality of real-time analytics of modules from BI stats.

## Projects

KRYPT PUNK  – Web 3.0 blockchain cryptocurrency

- Using React, Tailwind, Vite and Solidity created a personal Web 3.0 blockchain cryptocurrency app with a stunning design, connected to the blockchain, metamask pairing, solidity code and smart contract connecting to Ethereum network.

SHARE ME  – Social Media Application

- A beautiful application Share Me which is developed for posting images and to show them to everyone! The technologies that it's build on are React, Chat Engine, Firebase.

SOUND ARENA  – Modern Ecommerce Store

- Modern Full Stack E-Commerce Application build with **Stripe, Next.js, Redux & Sanity**

ProNef  – Modern Ecommerce Store

- ProNef has been developed using a cross-platform technology, **React Native.**
